

POWER PATH

from Fortress Power and Skylight Lending

Grow Your Business with us!

Program Overview

Skylight Lending and Fortress Power bring to you a one-of-a-kind program to help you grow your business. The Power Path program allows installers to get the most competitive product pricing and finance rates. With Fortress Power's extended 25-year warranty installers are able to offer peace of mind to their clients knowing that their system is warrantied for the entire duration of their loan. Installers also gain the advantage of being able to offer clients loan terms up to 25 years on battery only installations.

Fortress Power

- Industry leading 15 year standard warranty with 25 year extended product warranty
- 20% more projects with differentiated versatile solutions (smart load controls, smart level 2 EV charger, generator input, AC/DC or AC&DC coupled systems)
- Lowest Installation cost per kWh with less components

Skylight Lending

- Competitive financing rate with 2-7% lower dealer fee
- 20% Higher Approval Rating
- Fast Approval & Direct Pay Process
- Quick and seamless process

Free 4.9 kWh battery with every Avalon system for 30 days!

After Completing PowerPath Sales training give your sales team the edge by offering a free 4.9 kWh battery with every Avalon system.

POWER PATH

from Fortress Power and Skylight Lending

How to Enroll

1

Apply to become an approved dealer with Skylight Lending

2

Apply to become an authorized Installer with Fortress Power

3

Once approved, we will reach out to schedule your Technical and sales trainings

4

After training is complete, you may start offering PowerPath to homeowners. Sales teams will have 30 days to offer a free 4.9kWh battery with each Avalon System.
