

New Features:

- **Inverter Force Upgrade:** During the OTA upgrade, if the upgrade fails, we can now remotely force upgrade.
- **Installer App:** When selecting Re-Connect, users can change Wi-Fi settings.
- **Added Subtitle for Operating Mode**
- **Setting Inverter to zero or unlimited power to the grid (fast zero export)**
- Changing Operating Mode/Grid Code/Wi-Fi in the Setting part
- OTA feature is available, it is in the slide menu "Firmware"
- **Bug Fixes**
