

## DuraRack Mini Enclosure

### Product Title/H1 Title

Fortress Power DuraRack Mini Enclosure for eFlex Max 5.4kWh Batteries

### SEO Friendly Title (60 characters)/Page Title

Fortress Power DuraRack Mini Enclosure for 2 eFlex Max Batteries

### Product Description

The **DuraRack Mini Enclosure** is a compact, rugged solution for protecting and organizing your Fortress Power eFlex 5.4kWh batteries. Designed to hold up to **two eFlex batteries**, it's perfect for small 48V UPS setups, solar storage expansions, or light commercial projects.

Built from **IP66-rated carbon steel**, the DuraRack Mini is weather-resistant and safe for both **indoor and outdoor installations**. With **integrated busbars** for clean, simple wiring and the flexibility to be **floor-mounted or wall-mounted**, it's engineered for reliable performance in any space.

Ideal for **DIY solar users, homeowners, and small businesses**, this enclosure keeps your system secure, efficient, and ready for long-term operation.

### SEO Friendly Description (150-160 characters)/Meta Description

Mount 1–2 eFlex Max batteries with the DuraRack Mini. Rugged IP66 steel, wall or floor mountable, with integrated busbars for clean 48V solar or UPS installs.

### Product Key Features + Benefits

 Optimized for eFlex MAX 5.4kWh

Holds up to 2 Fortress eFlex MAX 5.4kWh batteries for compact energy storage.

 Integrated Busbars & Cables

Pre-wired with built-in busbars and battery cables, the DuraRack simplifies installation and makes stacking multiple batteries faster and more organized.

 Built to Last

Made from weather-resistant, IP66-rated carbon steel for long-term durability.

### Flexible Installation

Mount it to the wall or floor for use indoors or out.

### **Application**

Off-grid homes and cabins

Home backup power

DIY solar setups
